** All PinPoint Tags are Warrantied to be free of defects in materials and workmanship under Normal Use for a period of 80% of Estimated Life for the first deployment schedule, unless otherwise specified, to a specified Maximum Warranty Period. The Tags should function (meaning to charge and take fixes) for the entirety of the Tag's Warranty Period. For Remote Download PinPoint Tag Models (Argos, Iridium, VHF or GSM) the customer must prove that the Tag is in circumstances where it has had a good opportunity to collect GPS locations and where data reception is possible via the applicable method, in order to make a valid warranty claim. **No Signal Protection** (for PinPoint Argos Tags end transmission only) - Customers may choose to purchase No Signal Protection. If there is no signal during the specified Warranty Life, provided the schedule would indicate a transmission during that period.
