

STANDARD WARRANTY PERIODS

Given the wide variation of Lotek products, each Product Type is subject to its own unique Maximum Warranty Period, Standard Warranty Period, and Notable Warranty Conditions. The below table provides the typical Warranty specifics and is not intended to be relied upon in all cases. Please confirm your Warranty specifics with Lotek before use of the Equipment. All Product Types are subject to further Exceptions, Conditions, and Limitations outlined in the Lotek Wireless Inc. Limited Warranty. The specific Warranty Life that is provided for your Equipment will be specified on all Sales Orders.

PRODUCT FAMILY	PRODUCT TYPE	MAXIMUM WARRANTY PERIOD	STANDARD WARRANTY PERIOD	NOTABLE WARRANTY CONDITIONS
ACOUSTICS	ACOUSTIC RECEIVERS	12 Months Maximum	12 Months	Normal Use subject to the depth rating, deployment and maintenance practices outlined in the corresponding Product Manual
	ACOUSTIC TAGS	36 Months Maximum	80% of EL	Normal Use

	OTHER REMEDIATED PRODUCTS	3 Months Maximum	3 Months	Normal Use

*A charge for data download may be applicable. When a **Protection Plan** is purchased, if X% of recovered tags have failed within the Warranty Life and are returned to Lotek, replacement tags equivalent to X% of the entire order will be provided, on the condition that a minimum of the greater of 10% or 10 tags are returned for evaluation.

Maximum Warranty Period: The maximum possible duration the Equipment may be warrantied. Any applicable lesser duration of Warranty Life will override the Maximum Warranty Period.

Standard Warranty Period: Is the typical duration a Warranty lasts for each Product Type.

EL = Estimated Life: The duration in days the Equipment is estimated to last based on the scheduling and conditions to which the Equipment will be subjected. The Estimated Life is sometimes used to calculate the Warranty Life.
