# PinPoint Globalstar Solar Backpack

Technology:  Satellite

Product:  Tag

Houbara Bustard (*Chlamydotis undulata*)

## A Versatile GPS Transmitter with Global Remote Download

PinPoint Globalstar Solar Backpack provide GPS locations with remote download wherever your animals are in the world. No need for a mobile network and better temporal coverage than Argos, for a fraction of the weight of an Iridium tag.

No external antennas make them more robust and improve welfare for the birds that wear them.

### Options

- Mortality
- Temperature

#### Features:

Temperature

Mortality

Solar Assist

Data download (Satellite)

Duty cycling

#### Light weight:

Starting at 20g

#### Flexible GPS Scheduling:

GPS fixes spread over days, months or even a whole migration.

#### Low Temperature Protection:

For colder climates

## Product Applications

Home range locations, Survival, Reintroductions, Habitat use, Migration.

Model	Pinpoint Globalstar Solar Backpack
Weight <sup>[1]</sup> (g)	20
Life <sup>[2]</sup> (days)	Theoretically indefinite
Size (LxWxH) (mm)	76 x 30 x 15

1. Weights may vary by 5% owing to parts and production tolerances.
2. Tags can operate for an indefinite duration when sufficient solar energy can be harvested and the tags are not subjected to excessive wear and tear. It is also dependent on the frequency of the GPS and Globalstar communication schedule.

Features and specifications subject to change without notice.

Technical Specifications:  
 Operating temperature range: -15°C to +60°C
